

IFTEKHER MAHMUD | RESUME

- » **Status:** BSc in CSE, Lead Software Engineer with 8+ years' experience
- » **Fields:** Software Development, Architecture Design, Teaching & Mentorship
- » **Tech:** Java, Spring Boot, Grails, Oracle, PostgreSQL
- » **Loves:** Problem Solving, Debugging, Teaching, Music

»» Education

2012 - 2016	BSc in Computer Science & Engineering	Southeast University
	» CGPA - 3.18 out of 4.00	
2009 - 2011	Higher Secondary Certificate	Dhaka Board
	» GPA - 4.80 out of 5.00	
2007 - 2009	Secondary School Certificate	Dhaka Board
	» GPA - 5.00 out of 5.00	

»» Experience

2023 - Present	Lead Software Engineer	BRAC IT Services Limited
	» Lead development for ERP modules in Fixed Asset and Finance. » Designed and developed Inventory Management System. » Technologies: Groovy on Grails, Spring Boot, PostgreSQL.	
2023 - Present	Lecturer (Part-Time)	Southeast University
	» Teach undergraduate courses in Java and Advanced Java. » Prepare and evaluate class tests, assignments, and projects. » Mentor students and contribute to academic assessment.	
2022 - 2023	Assistant Lead Engineer	Nagad Limited
	» Designed and implemented middleware architecture integrating external clients for bill payment, merchant payment, bank transfers, and mobile top-ups. » Developed scalable backend services to support millions of daily transactions. » Technologies: Spring Boot, Oracle DB, MySQL.	
2019 - 2022	Senior Officer (Software)	Dutch Bangla Bank PLC
	» Developed features for Mobile Financial Services platform Rocket. » Supported Agent Banking and NexusPay applications. » Technologies: Java, Oracle DB, WebLogic, Tomcat.	

2017 - 2019

Software Engineer

ZIAU

- » Developed cross-platform games for mobile and web.
- » Managed company's Play Store account and deployments.
- » Technologies: Cocos2D-X CPP, Cocos2D-X JS, SQLite.

»» Key Projects

2023 - Present

ERP Enhancements – Fixed Asset, Inventory & Billing App

Grails, Spring Boot,
PostgreSQL

- » Developed ERP modules for fixed asset management.
- » Built an inventory management system and a billing application tailored for enterprise use.
- » Collaborated with cross-functional teams to streamline workflows and reporting.

2024 - 2025

Vulnerable Women Benefit (VWB) & Mother and Child Benefit Programme (MCBP)

Spring Web, Spring
Boot, PostgreSQL

- » Supported and enhanced large-scale government social safety net platforms serving vulnerable women and mothers across Bangladesh.
- » Worked closely with WFP, MoWCA, and DWA stakeholders to ensure stable operations, accurate data flow, and system reliability.
- » Optimized backend performance and strengthened integrations critical for beneficiary lifecycle management and programme monitoring.

2023 - 2025

Akash DTH Middleware Platform

Spring Boot,
PostgreSQL

- » Designed and developed a microservices-based middleware connecting Akash core systems with MyAkash app and external financial services.
- » Integrated multiple MFS and PSPs (Rocket, bKash, Nagad and others) for secure, real-time transactions.
- » Built a scalable and reliable backend supporting high-volume payment processing.

2022 - 2023

Middleware Architecture for Financial Integrations

Spring Boot, Oracle,
MySQL

- » Designed and led the architecture for integrating clients with bill payment, merchant services, bank transfers, and mobile top-ups.
- » Implemented scalable backend services supporting millions of daily transactions.
- » Improved system resilience and reduced downtime through optimized API handling.

2019 - 2022

Mobile Financial Services – Rocket & NexusPay

Java, Oracle DB,
WebLogic

- » Enhanced core features of Rocket MFS, serving millions of users.
- » Developed modules for Agent Banking and NexusPay applications.
- » Strengthened platform security and scalability to handle high-volume transactions.

2017 - 2019

Mobile Game Development – Dragon Battle, Dragon Castle, Monster Battle

Cocos2D-X, SDKBox,
Crashlytics

- » Developed and optimized gameplay features for multiple cross platform mobile games.
- » Integrated analytics, ads, and in-app purchase systems for monetization.
- » Supported production releases, crash monitoring, and post-launch stability.

»»» Technical Skills

- » **Languages:** Java, PHP, C/C++, HTML, CSS, Javascript
- » **Frameworks & Libraries:** Spring Boot, Groovy on Grails, Bootstrap, Cocos2d
- » **Databases:** PostgreSQL, Oracle, MySQL.
- » **Tools:** Git, GCP, IntelliJ IDEA, Net-Beans, Code Blocks, Eclipse, PHP My Admin, Android Studio
- » **Operating Systems:** Linux, Windows, Mac
- » **Areas of Expertise:** Enterprise Software, Middleware, API Integration, ERP Systems, FinTech Applications.

»»» Teaching / Courses

- » **Advanced Java & Lab:** Overview of system designing and different web application architectures, Java EE basics, Spring Web, Spring Boot, Spring Data JPA, and Spring Security.
- » **Introduction to Programming II (Java) & Lab:** Core Object-Oriented Programming concepts, Java syntax, Classes, Methods, Variables, Control statements, Exceptions, JavaFX & FXML, JDBC, Hibernate, and Threads.
- » **Web and Internet Programming & Lab:** Web application architectures, HTML, CSS, JavaScript, Bootstrap, PHP, APIs, SDLC, React, and MySQL fundamentals.
- » **Discrete Mathematics:** Propositional Logic, Quantifiers, Relations, Functions, Trees, Graphs, Permutations & Combinations, and Mathematical Induction.
- » **Engineering Ethics:** Code of Ethics, Standards of Professional Conduct, Fundamental Canons, Ethical Case Analysis, and Ethical Decision-Making Guidelines.

»»» Achievements & Additional

- » 8+ years of experience in software engineering across FinTech and enterprise domains.
- » Strong expertise in large-scale API integration and backend system design.
- » Teaching & mentoring undergraduate students in Java programming.
- » IELTS: Overall 7.5 (L-7.5, R-8.5, W-6.5, S-6.5).
